

Outdoor Sexual Adventures

Having sex outdoors is a special bond and closeness with nature having the hot sun or warm breeze or raindrops coming down on your body while making love. It has also heightened erotic excitement from the chance someone may see or hear you while doing the wild thing. Yes, you were born to be wild! Spring is the natural beginning time of the mating season in the wild. Spring Fever and Summer Sizzle has everyone's hormones all revved up in full gear. So go with your animalist instincts, whether you are getting back in shape, looking for romance or just want to bring the bedroom outside, you can have so much healthy fun with outdoor sexual adventures.

Golf anyone? Be the envy of your friends and have fun while you get exercise on the course. Tee off with the **Sexy Golf Tee's** for him or her. The shapes will help keep your head down when you swing as they give you something extra to look at when you connect with the ball. The putters are real and real fun. The **Penis Pudder** with a penis shape end, or the **Titalator** with perfectly rounded breasts both carry a nice weight and pendulum swing which makes the perfect putt every time. Excellent for tournament play too.

Have a picnic and take the game **Passion Throw**. The game board is a blanket you use to play out your moves of foreplay and the winner gets to pick their favorite position. With a blanket you won't get caught with grass in your hair or you know where. Machine washable, and there is also a similar version called **Gay Play**. Add some **Chocolate Body Topping** and **Flavored Whipped Cream** to your picnic for your dessert. No refrigeration for either required, just an anxious tongue.

A really good time to do inside but even more exciting outside is to hang the **Love Swing** from the old oak tree and make whoopee under the stars and howl at the moon. The Love Swing is an adult jolly jumper made for 2. There are multiple positions you can both do with it. You can be face up, face down, upside down, your partner on it with you, beside it, under it, bouncing or swinging which makes for a perfect effortless in and out motion. This all makes it simply for anyone with injuries or weight bearing concerns as it takes the stress off. Even more moves, get the **Spinning Sex Swing** which also does full repetitive 360's and is leopard lined for your wild side.

It's also time for new things. The latest most popular sexual products is **The Liberator-Bedroom Adventure Gear**. As seen in many magazines like Maxim and Playboy, it also made a cameo in "Meet The Fockers" and now is in Canada. They are not just a glorified pillow, no way!! The Liberators are made of 4 layers. The very outside is a nylon Gear Bag to store them dust free and for discreet travel use. Then the main cover is a super soft microfibre velvet that is slip free and feels so sexy and luxurious on the skin. This layer can be taken off and washed to easily dispose of those love juices. You can get this cover in many attractive colors. Then underneath is another soft silky nylon play surface that is waterproof to protect the inside core. The core is made of high density urethane, engineered to support hundreds of pounds of motion, in comfort. The angles, elevations, textures, curves and motions put lovers in all sorts of unique ways and enable positions otherwise impossible to achieve. Particularly more precise contact with the clitoris and g-spot, deeper penetration for his penis, more range of motions, a must have for the oral enthusiast and anyone who enjoys a good rogering. Then all these unique shapes also are in the **Black Label** series, which comes with a bondage restraint system of cuffs, tethers and blindfold. The soft cuffs and tethers attach right onto the various snaps on the shapes cover to take you into another adventure of love. The Liberator is designed to help all men and women, people with limited mobility/special needs, as well as seniors and extra weight lovers. So no matter whom you are, what size you are, or what kind of fun you prefer, Liberator can make the sex you have dramatically better. For a free catalog, call 1.888.220.2204.

Sex is fun and healthy and this time of year makes it even more exhilarating when we come out of hibernation and can bring it outdoors. This is also the season of weddings, so next issue we will do a special review of great items to plan a fun Stag & Stagette. Sensual Secrets does tasteful **Pleasure Parties** if you are looking for something different or some sexual education and stimulation before you go out on the town to celebrate.
